PROJECTS

Book Store Web App - Currently working with a 5 person team using scrum methodology to implement a mock online bookstore application using the MERN stack (MongoDB, Express.js, React.js, and node.js).

Call Center Analytics App - Currently working on developing an application in Python to analyze call center data for keywords and phrases that then compiles various reports on trends related to customer needs and satisfaction.

EXPERIENCE

SCHLUMBERGER 2018 - 2020
FIELD ENGINEER

- Onsite project manager/technical lead
- Managed all onsite IT, Programming, & trouble shooting needs
- Compiled and conducted all job reporting
- Verified the job design; QA/QC testing
- Responsible for the movement and parts for all Schlumberger assets on the jobsite
- Managed chemicals and materials needed for the job
- Managed cost for job ticketing and conducted cost analysis
- Managed a crew of 10-20 people

Schlumberger Empowerment Team (SET) Field

Implementation Lead - Part of an internal organization at Schlumberger that focused on improving processes and identifying challenging areas within the company by using Agile Scrum methodologies. I worked with a team to implement and install new equipment in the field to help make our processes safer and more efficient.
